Dear Sir,

Regarding your advert for Public submissions to Performance of the Health and Quality Complaints Commission I have a current Complaint being investigated by the Above but I don't think they have enough Powers to resolve my complaint the Coroner has read this Report and has asked me to write a letter and tell them what I want done as there are question left unanswered the Health commission I don't believe has the Powers to investigate these further as they said they dont take these matters to the Coroner they only assist with the information they already have I have further evidence but the Health Commission said they dont want it hoping that this information may help you

Yours Faithfully
Gerald McMahon
