

Make a Law

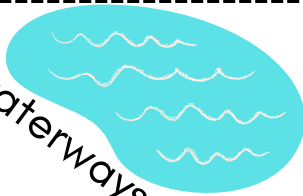

One of Parliament's jobs is to make and improve laws.
Think about some things in your life that are important to you...

pets

waterways

sports

Imagine a new law that will improve this part of your life. Draw your new law here.

Which of these could be improved?
How?

Use words or labels to explain how your new law will work.

Tell a friend:

- Why we need this law
- Who will like this law
- Who will not like this law
- What should the consequence be, for someone who breaks this law.
