- (2) Without limiting subsection (1), this Act does not exclude, limit or otherwise affect the duties, obligations, requirements or restrictions imposed, under the *Environmental Protection Act 1994*, on the holder of an authority or small scale mining tenure.

[s 6]

6 Act does not affect other rights or remedies

- (1) This Act does not affect or limit a civil right or remedy that exists apart from this Act, whether at common law or otherwise.

- (3) In addition, a breach of an obligation under this Act does not of itself give rise to an action for breach of statutory duty or another civil right or remedy.
- (4) To remove any doubt, it is declared that nothing in this Act creates an obligation on the State to take action, or incur costs and expenses, to—
 - (a) prevent or minimise environmental harm or rehabilitate or restore the environment, in relation to the carrying out of an activity under an authority or small scale mining tenure; or

Subdivision 1 Contribution to scheme fund

46 Application of subdivision

This subdivision applies if—

- (a) both of the following apply—
 - (i) the scheme manager makes an allocation decision for an authority that allocates the authority to 1 of the following risk categories—
 - (A) very low;
 - (B) low;
 - (C) moderate;
 - (ii) the scheme manager does not decide, under section 53(c)(ii), that the holder of the authority must give a surety rather than pay a contribution; or
- (b) all of the following apply—
 - (i) the scheme manager makes an annual review decision for an authority that allocates the authority to the risk category of high;
 - (ii) the scheme manager has made an annual review decision for the authority, for each of the 4 years immediately preceding the decision mentioned in subparagraph (i), that allocates the authority to 1 of the following risk categories—
 - (A) very low;
 - (B) low;
 - (C) moderate;
 - (iii) the scheme manager is satisfied when the scheme manager makes the annual review decision mentioned in subparagraph (i) that the holder is not

[s 47]

reasonably able to give a surety for the authority within 12 months after the decision is made.

47 Holder must pay contribution to scheme fund

- (1) The holder of the authority must pay a contribution to the scheme fund within 30 business days after—
- (a) for an initial allocation decision—the initial allocation day for the authority; or
 - (b) for a changed holder review decision—the day the decision takes effect under section 37; or
 - (c) for an annual review decision—the annual review day for the authority.

Note—

The holder of the authority must not carry out, or allow the carrying out of, a resource activity under the authority unless the holder has paid the contribution—see the *Environmental Protection Act 1994*, section 297.

- (2) The contribution payable must be worked out using the formula—

$$C = A \times B$$

where—

A is the estimated rehabilitation cost for the authority at the beginning of the day that is—

- (a) for an initial allocation decision—the initial allocation day for the authority; or
- (b) for a changed holder review decision—the day the decision takes effect under section 37; or
- (c) for an annual review decision—the annual review day for the authority.

B is the prescribed percentage for the authority.

C is the amount of the contribution.

-
- (3) For the *Mineral and Energy Resources (Common Provisions) Act 2014*, section 20A, the holder mentioned in subsection (1) is the entity mentioned in section 20A(2) of that Act.

48 Rate of contribution if holder not able to give surety

An authority mentioned in section 46(b) is taken to be allocated to the risk category of moderate for working out, under section 47, the contribution payable for the authority.

49 Holder must pay contribution and give surety if estimated rehabilitation cost more than fund threshold

- (1) This section applies if the estimated rehabilitation cost for the authority is more than the fund threshold.
- (2) Despite section 47(2), the contribution payable must be worked out using the formula—

$$C = A \times B$$

where—

A is the fund threshold.

B is the prescribed percentage for the authority.

C is the amount of the contribution.

- (3) In addition to paying the contribution worked out under subsection (2), the holder of the authority must give a surety for the amount that equals the estimated rehabilitation cost for the authority less the fund threshold.

50 Refund of contribution to previous holder

- (1) This section applies if—
- (a) a holder of an authority (a *previous holder*) pays a contribution; and
 - (b) during the 12 months after the contribution is paid, the scheme manager makes a changed holder review decision that has the effect of another holder of the

[s 51]

authority (the *changed holder*) being liable to pay a contribution, or give a surety, under this part.

(2) The scheme manager must, within 30 business days after the changed holder pays the contribution or gives the surety under this part, refund to the previous holder the pro rata amount of the contribution relating to the remainder of the year after the decision.

(3) In this section—

pro rata amount, of a contribution relating to the remainder of a year, means the proportion of the amount of the contribution that is the same proportion that the remainder of the year bears to the whole year.

51 Recovery of unpaid contribution

A contribution payable under this subdivision may be recovered as a debt payable to the State.

52 Notification of administering authority

The scheme manager must, as soon as practicable after the holder of an authority has paid a contribution under this subdivision, give the administering authority for the authority notice of the payment.

 - (ii) when each management milestone is to be achieved; and
 - (d) include maps showing the land mentioned in paragraphs (a), (b) and (c).

 - (b) both of the following apply—
 - (i) the risk of environmental harm as a result of not carrying out rehabilitation of the land is confined to the area of the relevant resource tenure;
 - (ii) the applicant considers, having regard to each public interest consideration, that it is in the public interest for the land not to be rehabilitated to a stable condition.

- (3) Despite subsection (2), if land the subject of the proposed PRCP schedule will contain a void situated wholly or partly in a flood plain, the schedule must provide for rehabilitation of the land to a stable condition.

In this division—

ERC decision means a decision of the administering authority under section 300 about the estimated rehabilitation cost for a resource activity.

ERC period, for the estimated rehabilitation cost for a resource activity, means—

- (a) if a PRCP schedule applies for the activity—the period of between 1 and 5 years stated in the application for an ERC decision under section 298(2)(b); or
- (b) if the activity is a petroleum activity that is an ineligible ERA, other than a petroleum activity to which a plan of operations applies, or the activity relates to a 1923 Act petroleum tenure granted under the *Petroleum Act 1923*—the period of between 1 and 5 years stated in the ERC decision about the estimated rehabilitation cost; or
- (c) if a plan of operations applies for the activities—the plan period for the plan of operations; or
- (d) otherwise—the total period during which the resource activity is likely to be carried out under the environmental authority for the activity.

estimated rehabilitation cost, for a resource activity, see section 300(2).

297 Condition about ERC decision

It is a condition of an environmental authority for a resource activity that the holder must not carry out, or allow the carrying out of, a resource activity under the authority unless—

[s 173]

- (a) an ERC decision is in effect for the resource activity when the activity is carried out; and
- (b) the holder has paid a contribution to the scheme fund or given a surety for the authority under the *Mineral and Energy Resources (Financial Provisioning) Act 2018*; and
- (c) the holder has complied with the requirements under the *Mineral and Energy Resources (Financial Provisioning) Act 2018* for paying a contribution to the scheme fund, or giving a surety for the authority, as required from time to time.

298 Applying for ERC decision

- (1) The holder of an environmental authority for a resource activity may apply to the administering authority for an ERC decision for the resource activity.
- (2) The application must—

 - (b) state the ERC period to which the application relates; and
 - (c) state the amount the holder considers to be an estimate of the total cost, for the ERC period, of the following, worked out in compliance with the methodology decided by the chief executive—
 - (i) rehabilitating the land on which the resource activity is carried out;
 - (ii) preventing or minimising environmental harm, or rehabilitating or restoring the environment, in relation to the resource activity; and

- (d) include the other information the administering authority reasonably considers necessary to make the ERC decision; and
- (e) include a compliance statement made by or for the holder stating the amount mentioned in paragraph (c) for the ERC period—
 - (i) is worked out in compliance with the methodology mentioned in that paragraph; and
 - (ii) if a PRCP schedule or plan of operations applies for the resource activities—is consistent with the schedule or plan.

299 Administering authority may require additional information

- (1) The administering authority may, within 10 business days after receiving the application, give the holder a written notice asking the holder to provide further information the authority reasonably requires to make the ERC decision.
- (2) The notice must state a period of at least 10 business days within which the information must be given.
- (3) If the holder does not comply with the notice, the administering authority may make the ERC decision without the further information.

300 Making ERC decision

- (1) After receiving the application, the administering authority must decide, for the ERC period, the amount of the estimated cost of—
 - (a) rehabilitating the land on which the resource activity is carried out; and

[s 173]

- (b) preventing or minimising environmental harm, or rehabilitating or restoring the environment, in relation to the resource activity.
- (2) The amount of the estimated cost decided under subsection (1) is called the *estimated rehabilitation cost* for the resource activity.
- (3) The decision must be made within—
 - (a) the later of—
 - (i) 15 business days after the application is received; or
 - (ii) if a notice under section 299 is given to the holder of the environmental authority—10 business days after the day the further information is received or the holder fails to comply with the notice; or
 - (b) if the holder agrees to a longer period of no more than 20 business days—the longer period.
- (4) In making the decision, the administering authority must have regard to—
 - (a) whether the estimate of the total cost mentioned in section 298(2)(c) has been worked out, for the ERC period, as mentioned in that paragraph; and
 - (b) the guidelines under section 550.
- (5) The ERC decision—

 - (ii) otherwise—at least 20 business days before the ERC period to which the decision relates ends; or

[s 173]

- (b) otherwise—at least 3 months before the ERC period to which the decision relates ends.

Maximum penalty—100 penalty units.

303 Administering authority may direct holder to re-apply for ERC decision

- (1) This section applies if the administering authority—

Part 27 Transitional provisions for Mineral and Energy Resources (Financial Provisioning) Act 2018

750 Definitions for part

In this part—

amended Act means this Act as in force after the commencement.

amending Act means the *Mineral and Energy Resources (Financial Provisioning) Act 2018*.

assent date means the date of assent of the amending Act.

environmental authority includes a suspended environmental authority.

land outcome document, for land, means the following documents relating to the land—

- (a) an environmental authority for a resource activity on the land;
- (b) a document made under a condition of an environmental authority mentioned in paragraph (a), if—
 - (i) the document relates to the management of a void within the meaning of section 126D on the land, or the rehabilitation of the land; and
 - (ii) the document was received by the administering authority before the assent date; and
 - (iii) the administering authority has not, within 20 business days after the assent date, given notice to the holder of the environmental authority that the

- document is insufficient in a material particular relevant to a matter mentioned in subparagraph (i); and
- (iv) before the assent date, the document had not been superseded;
- (c) a document made under a condition of an environmental authority mentioned in paragraph (a), if—
- (i) the document relates to the management of a void within the meaning of section 126D on the land, or the rehabilitation of the land; and
- (ii) the environmental authority requires the document to be given to the administering authority on a stated day that is on or after the assent date, or does not state a day when the document must be given; and
- (iii) the document is received by the administering authority within 3 years after the assent date; and
- (iv) the administering authority does not, within 20 business days after receiving the document, give the holder of the environmental authority notice that the document is insufficient in a material particular relevant to a matter mentioned in subparagraph (i);

[s 203]

mining EA applicant means an applicant for a site-specific application for a mining activity relating to a mining lease, if the application is made on or before the PRCP start date.

mining EA holder means—

- (a) a person who, on the commencement, is the holder of an environmental authority for a mining activity relating to a mining lease, if a relevant activity for the authority is an ineligible ERA; or
- (b) a person who becomes the holder of an environmental authority for a mining activity authorised under a mining lease, if the holder was, before the authority is issued, the mining EA applicant for the authority.

PRCP start date means the day, prescribed by regulation for this definition, that is no later than 1 November 2019.

pre-amended Act means this Act as in force before the commencement.

751 Pre-amended Act applies to mining EA applicants

- (1) This section applies in relation to a mining EA applicant.
- (2) The pre-amended Act, chapter 5, parts 1 to 5, applies to the mining EA applicant's site-specific application as if the amending Act had not commenced.
- (3) If an environmental authority is issued to the mining EA applicant for the application, the amended Act applies in relation to the environmental authority on and from the day the authority is issued.

- (4) However, section 431A does not apply in relation to the environmental authority until the earlier of the following days—
 - (a) the day the applicant fails to comply with a notice given to the applicant under section 754;
 - (b) the day a PRCP schedule for the environmental authority is approved.

752 Existing plan of operations for petroleum lease

- (1) This section applies to a plan of operations for an environmental authority for petroleum activities relating to a petroleum lease, if the plan was given to the administering authority before the commencement.
- (2) On the commencement, the plan of operations continues as a plan of operations under section 291.
- (3) However, if the plan period stated in the plan ends more than 3 years after the commencement, the plan period is taken to end on the day that is 3 years after the commencement.

753 Plan of operations for mining lease

- (1) This section applies if—
 - (a) a mining EA holder gave a plan of operations to the administering authority for a mining lease under the pre-amended Act; and
 - (b) on the commencement, the plan period for the plan under the pre-amended Act, section 288(1)(b) has not ended.
- (2) The plan of operations continues as a plan of

[s 203]

operations under the pre-amended Act, and the pre-amended Act, sections 289, 290 and 291 continue to apply in relation to the plan of operations, until the earliest of the following days—

- (a) the day the plan period for the plan of operations ends;
- (b) the day a PRCP schedule is approved for the holder for the mining lease;
- (c) if the holder of the mining lease re-applies for an ERC decision under the amended Act, section 304—the day the ERC decision for the application is made.

(2A) However, from the commencement, the holder may not, under the pre-amended Act, section 289—

- (a) replace the plan; or
- (b) amend the plan in a way that increases the total area of land the subject of a rehabilitation program mentioned in the pre-amended Act, section 288(1)(c)(iii).

(3) If the plan of operations ends before the day a PRCP schedule is approved for the holder's mining lease, section 431A does not apply to the holder until the earlier of the following days—

- (a) the day the holder fails to give a proposed PRC plan in compliance with a notice given to the holder under section 754;
- (b) the day a PRCP schedule is approved for the holder.

(4) However, subsection (5) applies if—

- (a) the holder fails to comply with the notice given to the holder under section 754 because the holder purported to give the

- administering authority a proposed PRC plan in compliance with the notice; and
- (b) the administering authority gives the holder written notice for a decision to refuse to approve the proposed PRCP schedule.
- (5) Section 431A does not apply to the holder until—
- (a) if the holder re-applies for approval of another proposed PRCP schedule within 40 business days after the written notice is given—the day the administering authority—
- (i) issues a PRCP schedule under section 195; or
- (ii) gives the holder written notice refusing to approve the other PRCP schedule; or
- (b) otherwise—40 business days after the written notice mentioned in subsection (4)(b) is given.

754 Requirement for mining EA holders to give proposed PRC plan

- (1) The administering authority must, within the period stated in subsection (2), give each mining EA holder a notice stating—
- (a) the holder must give the administering authority a proposed PRC plan that complies with sections 126C and 126D for the relevant activities the subject of the holder's environmental authority; and
- (b) the period, of not less than 6 months from the day the notice is given, within which the holder must comply with the notice.
- (2) The notice must be given within the period—
- (a) starting on the PRCP start date; and

[s 203]

- (b) ending on the day that is 3 years after the PRCP start date.
- (3) The holder is not required to comply with a requirement under section 126C(1)(g) or (h) or 126D(2) or (3) for the proposed PRCP schedule for the plan in relation to land if—
 - (a) an outcome for the land has been identified under a land outcome document; and
 - (b) the outcome for the land is the same as, or substantially similar to, the outcome for the land if it were a non-use management area under a PRCP schedule.

Example of an outcome for land—

A residual void or pit authorised under an environmental authority may constitute the outcome for the land on which the void or pit is located, even though the environmental authority or any other land outcome document does not expressly state anything about the outcome for the land, other than authorising the void or pit.

- (4) However, if the environmental authority or any other land outcome document does not state sufficient detail to identify either the location or area of the land to which the outcome relates, the proposed PRC plan must state—
 - (a) if the area is not identified—how the total area of the land to which the outcome relates will be minimised; and
 - (b) if the location is not identified—how the mining EA holder will ensure the location of the land to which the outcome relates minimises risks to the environment.
- (5) For subsections (3) and (4), if there is an inconsistency in land outcome documents for land, the document appearing first in the list mentioned in section 750, definition *land outcome document* prevails to the extent of the

inconsistency.

- (6) The administering authority must keep a register of an extract of a written agreement mentioned in section 750, definition *land outcome document*, paragraph (f) that identifies the location or area of land mentioned in subsection (4).
- (7) Sections 541, 542 and 543 apply in relation to a register mentioned in subsection (6).
- (8) Subsection (9) applies in relation to a proposed PRC plan required under a notice mentioned in subsection (1).
- (9) A regulation may prescribe exceptional circumstances, in addition to a matter mentioned in section 126D(5), in which land the subject of the PRC plan that is not being mined is taken not to be available for rehabilitation for section 126D(4).

755 Administering authority must assess proposed PRC plan

- (1) The administering authority must assess a proposed PRC plan given to the authority in compliance with a notice given under section 754.
- (2) The assessment process under chapter 5, parts 2 to 5 of the amended Act apply in relation to the proposed PRC plan as if the PRC plan accompanied an application for an environmental authority for a relevant activity made under section 125(1)(n).
- (3) However, for applying the assessment process under subsection (2)—
 - (a) the periods mentioned in sections 144(a)(ii), 168(1)(b) and 194(2)(a)(ii) are taken to apply to the administering authority for the assessment process; and

[s 203]

- (b) the submission period mentioned in section 154 is taken to be the period, of at least 20 business days after the giving and publishing of the application notice for the PRC plan under section 152, decided by the administering authority; and
 - (c) the application stage and notification stage apply subject to sections 755A and 755B.
- (4) If a requirement for the proposed PRCP schedule does not apply to the holder under section 754(3), section 176A(3) does not apply in relation to the administering authority in deciding whether to approve the schedule to the extent the requirement does not apply to the holder.
- (6) In addition to the matters the administering authority must consider in deciding whether to approve the PRCP schedule for the proposed PRC plan under sections 176A and 194B, the authority must also have regard to—
- (a) each land outcome document for land to which the proposed PRC plan relates; and
 - (b) to the extent possible, the matters the administering authority would have had regard to if the proposed PRC plan had accompanied an application for the holder's environmental authority.

755A Application of requirement for public interest evaluation for application stage

- (1) Section 136A does not apply for the assessment of a proposed PRC plan under section 755(2), unless—
- (a) the PRCP schedule for the proposed PRC plan identifies a non-use management area under section 126D(2)(b); and

- (b) the holder is required to comply with a requirement under section 126C(1)(g) or (h) or 126D(2) or (3) for the proposed PRCP schedule in relation to land because section 754(3) does not apply for the area.
- (2) Subsection (3) applies if—
 - (a) a public interest evaluation is required for the assessment of the proposed PRC plan; and
 - (b) the qualified entity carrying out the evaluation considers an alternative option to approving the area as a non-use management area under section 316PA(2)(c); and
 - (c) the financial viability of the mining activity or resource project would be jeopardised if the alternative option were implemented.
- (3) The report for the public interest evaluation under section 136A(2) must include a consideration of the stage of, and the land outcome documents relating to, the mining activity or resource project.

755B Application of notification stage

- (1) This section applies if either of the following matters is satisfied in relation to land the subject of a proposed PRCP schedule—
 - (a) the outcome for land under a land outcome document is the same as, or substantially similar to, the post-mining land use or non-use management area stated for the area under the proposed PRCP schedule; or
 - (b) for an area of land stated in a land outcome document that could be a proposed non-use management area under the PRCP schedule—the schedule proposes a

[s 203]

post-mining land use for all or part of the land.

Example of an outcome for land—

A residual void or pit authorised under an environmental authority may constitute the outcome for the land on which the void or pit is located, even though the environmental authority or any other land outcome document does not expressly state anything about the outcome for the land, other than authorising the void or pit.

- (2) The notification stage under chapter 5, part 4 does not apply for the assessment of the proposed PRCP schedule under section 755(2), to the extent of the matter.
- (3) If the notification stage under chapter 5, part 4 applies for the assessment process because the outcome for land under a land outcome document is different to the outcome for the land under the proposed PRCP schedule, a submission under section 160 may relate only to the difference in outcome for the area.
- (4) For applying subsection (2), if there is an inconsistency in land outcome documents for land, the document appearing first in the list mentioned in section 750, definition *land outcome document* prevails to the extent of the inconsistency.

756 Administering authority may amend environmental authority

- (1) This section applies if the administering authority approves the PRCP schedule for a proposed PRC plan mentioned in section 755.
- (2) The authority may amend the holder's environmental authority for the relevant activities the subject of the schedule—

- (a) to the extent necessary to remove matters relating to rehabilitation that are dealt with in the schedule; and
 - (b) to make any clerical or formal change resulting from the approval of the schedule.
- (3) If the administering authority amends the environmental authority under this section, chapter 5, part 6 applies as if the amendment were a matter mentioned in section 215(2).

757 Applications for decision about amount and form of financial assurance

- (1) This section applies in relation to an environmental authority for a resource activity if, before the commencement, the administering authority had not given the holder of the environmental authority a notice under the pre-amended Act, section 296 about the amount and form of financial assurance required under a condition of the environmental authority.
- (2) The pre-amended Act, chapter 5, part 12, division 2, subdivision 2 continues to apply in relation to the environmental authority as if the amending Act had not commenced.
- (3) Despite subsection (2), the administering authority must—
 - (a) transfer to the scheme manager any financial assurance for the resource activity that is given in cash to the authority after the commencement; and
 - (b) take all necessary steps to transfer to the scheme manager any instruments or other forms of financial assurance in relation to the resource activity that are given to the authority after the commencement.

[s 203]

758 When existing condition requiring financial assurance ends

- (1) This section applies if—
