484B Definitions for part

In this part—

criminal history, for a person, means the person's criminal history as defined under the *Criminal Law (Rehabilitation of Offenders) Act 1986*, other than spent convictions.

- (2) The chief executive may ask the commissioner of the police service for a written report about the criminal history of the relevant person that includes a brief description of the circumstances of a conviction mentioned in the criminal history.
- (3) The commissioner of the police service must comply with the request.
- (4) However, the duty to comply applies only to information in the commissioner's possession or to which the commissioner has access.
- (5) The chief executive must examine the report and identify, to the extent it is reasonably practicable to do so, offences involving conduct, behaviour or circumstances that suggest the relevant person's presence at the place or vehicle may endanger the authorised person's safety.
- (6) The chief executive may give the authorised person information in the report about the offences identified under subsection (5).
- (7) The chief executive must ensure the report, and any information in the report given to an authorised person in writing, is destroyed as soon as practicable after the report is no longer needed for the purpose for which it was requested.
