**Subject:** Also racing integrity bill commission

Just wanted to state that my wife and six year old son and I run a breeding, agistment, breaking in, yearling preparation and racing operation from Greenmount on the darling downs and we feel that all confidence in an industry that is the lifeblood of so many in our community has been lost as a result of the announcement regarding this new bill.

We as a small part of this industry have given everything we have to try and make our operation a success and support as many local business as is possible.

Please support this amazing industry which generates not only a large amount of wagering taxes but so many jobs, so many families, so many business's and so many people and families like ours.
