**To:** Agriculture and Environment Committee  
**Subject:** New Bill

If you had 20,000 people going to be affected by your bill, would you not think of the repercussions? The buying & selling of horses is all about confidence in the industry. If the bill goes through, confidence in the future will drastically drop. You only have to look at how the brood mare numbers fell dramatically because we used to be soooo far behind. Many breeders left the industry then. After NSW & Victoria have again raised their prize money, dropping our prize money isn't a good look for labour nation wide. Please don't Regards, Brian & Kaylene Gibson  
Breeders & race horse owners.
