Ladies/Gentlemen

SUBMISSION - Racing Integrity Bill 2015

The government continues to support and tries to strengthen an industry that races, cages and routinely kills thousands of dogs for gambling. These dogs are viewed as expendable by this industry - when they are no longer winning, or they are injured, they are disposed of.

here is no amount of legislation which will provide any form of protection for these exploited dogs. Nor is there any legislation which will instill any community confidence in this totally socially unacceptable industry. The 'wastage' in this industry is appalling. As long as the greyhound racing industry is allowed to continue thousands of magnificent animals will be bred and, if they are 'lucky', get to race for a few years, and then KILLED.

This industry needs to end.

Thank you for reading this submission and I sincerely hope you take notice of my points and look forward to an end to this cruel industry.

Yours

Lynne Morton
