Subject: Racing costs

The plan to spend millions of dollars to ensure racing is clean stinks of jobs for the boys not a plan to achieve a outcome required. Its easy to use a keep it simple plan of the past.

- 1 All horse's to be presented to race free of drugs.
2. A list of drugs supplied to all trainers monthly that are banned.
3. If charged with your horse having any of the list in the system there is a fixed term of do not come again for X years.
4. There can only be one appeal and that is to the board and you must do this within 30days.

1. The cost to do the above will only increase in the tests completed plus ensure those that cheat are dealt with quickly.

2. If you give a trainer the right to train then you must give him some honour to perform that right.

My past boss would say most problem come from the lack of trust in people,

Regards Tony Green. [REDACTED].
