[REDACTED]
PALM BEACH Qld 4221

Our submission to the Board is as follows:

No 1 Issue: Re the Board.

We feel that the Board needs to have competent people who understand fully the complex issues needed to make the Racing Industry viable. It is imperative that we don't need people on the Board who haven't had any in depth knowledge of the Racing Industry. The previous Board was exceptional for all the participants.

No 2 Issue: Re the Stakeholders.

There is no input for the Stakeholders. As Stakeholders ourselves we have bought many fillies to race in the QTIS races and have no input on how racing is run. Why is this?

No 3 Issue: Re Funding.

The Integrity Industry should be funded by the Government not by us who are the participants in racing.
