Subject: Alteration to racing

Dear Parliament

I operate a medium size produce store at Tanawha and employ 3 people. Whilst we supply recreational riders as well approximately 25% of our sales are to racehorse owners and trainers.

We are well aware that at times they struggle to pay their feed accounts and if the proposed reduction in prize money is introduced the effect will flow down the line to suppliers like ourselves.

We support the resolutions put forward at the Doomben rally particularly the rejection of having a Board with a majority of non-industry knowledgeable people.

We fully support the three resolutions and hope good sense prevails and brings Queensland in line with our southern states.

Regards

Tracie Nolan
