

SUBMISSION TO THE QUEENSLAND GOVERNMENT

I am not in favour of the passing of the Queensland Integrity Commission Bill.

This bill will have an extremely negative effect on Country Racing, and the many people and local businesses involved in the industry.

Country racing is not only an entertainment that draws people to small areas. It provides income and employment for many that will be forced out of the workforce if country racing become unviable for those involved.

I respectfully urge the Queensland Government to delay the passing of this bill until a new board has been appointed, and has had sufficient time to study all aspects of the Bill.
