To whom it may concern

I'm writing to express my full support for the *Environmental Protection (Chain of Responsibility) Amendment Bill 2016*. I endorse the points raised by the Lock the Gate group. In particular I am concerned that those benefiting directly from mining-related activities should be required to avoid environmental harm and, additionally, to bear the cost of rehabilitating land and waterways at the end of a mine or processing facility's life. It is iniquitous and inequitable that taxpayers might have to fund remedial activities. Clearly I support the "polluter pays" principle.

I applaud this initiative.

Yours faithfully
