Dear Sir/Madam,

I believe companies must be held to account with regards to cleaning up the environmental impacts of their sites.

The development of underground coal gasification (Coal Seam Gas and Shale Gas) is a huge worry, and has been proven to damage the environment in other countries and at other sites.

I 100% support the 'polluter pays' principle and agree with the legislative amendments proposed in the Environmental Protection (Chain of Responsibility) Amendment Bill 2016.

As a Queensland taxpayer and a human being who is extremely grateful for this planet, please consider my voice, and the thousands of others you will no doubt receive asking for polluters to be held to account.

Kind regards,
Victoria McGuin
