Subject: Submission on Puppy Protection Bill
Date: Monday, 7 March 2016 4:36:12 PM

Dear Madam/Sir,

We hereby kindly request you to think seriously about the possibility of banning puppy mills in your state.

These cruel means of exploiting living, feeling creatures should simply no longer be allowed in a progressive and cultured country like ours.

Although I now live in Germany, I am originally from Australia and I feel it is incumbent upon all of us to speak up against cruelties if we know about them.

There are millions of homeless dogs in this world – why on earth should it be allowed to carry on breeding more. And especially to breed dogs in this cruel and negligent fashion? And we all know that the puppies from these puppy mills are in most cases not healthy – to say the least. A natural result of the breeding procedure.

I hope sincerely that you will consider your stand in this matter and discover your heart for creatures of our earth.

Yours most sincerely,

Monika Koestler
