

Research Director  
Agriculture and Environment Committee  
Parliament House  
BRISBANE QLD 4000

Dear Sir,

I am writing to you to voice my support for the Queensland Land Clearing Reform Bill. In the light of the global crisis we all face in the form of Climate Change and Global Warming, it is obviously imperative that we do all we can to reduce carbon emissions to conserve and protect our natural habitats for both humans and animals alike. The Queensland Land Clearing Reform Bill will be vital in the fight to keep Earth habitable for us and future generations. Land clearing, mining and the burning of fossil fuels are huge contributors to the current climate crisis and so I emphatically encourage you to do all you can in your power to look after our rivers, air, rainfall, animal species and in the end all of us who depend on the delicate balances of the Earth's fragile Eco-systems. Please see to it that strong legislation is in place to ensure our sustainable future.

Yours sincerely,

Noel Waterman.
