Subject: stop land clearing. Vegetation Management Bill

TO
Research Director
A&E Committee, Parliament House, Brisbane. Qld. 4000.

We hope the government will repeal the tree clearing put in place by the LNP government. We are concerned that the koala is slowly being killed off in Qld. We are also worried about global warming by tree clearing as the last two years are the hottest on record. Also we are worried about run off into the great barrier reef which is slowly bleaching.

Regards, Luke and Jean Daglish.
