**Subject:** Support the new bill to strengthen state tree clearing laws  
**Date:** Sunday, 17 April 2016 11:11:42 PM

---

Dear committee,

I Sheryn Ryan-Raison [REDACTED] support the new bill to help protect Queensland's forests, ecology, flora, fauna, rare fauna that faces extinction, the Barrier Reef that also faces extinction if tree clearing continues.

Our elected government needs to think of our children, grandchildren and "tomorrow- the legacy of our land" that our children inherit. We need to protect and care for it and not bow down to money - the root of all evil. We Queenslanders need to get our priorities straight and protect - NOT DESTROY our land, our children's legacy.

PLEASE STOP THE DESTRUCTION OF OUR PRECIOUS FORESTS! Think of the effects it has on the Great Barrier Reef, Aboriginal sacred lands, koalas, rare animal and bird extinction and OUR CHILDREN'S FUTURE.

Sincerely  
Sheryn Ryan-Raison

Varsity Lakes, QLD
