31st March 2016

Dear Sir/Madam,

Re: Vegetation Management (Reinstatement) and Other Legislation Amendment Bill 2016

BirdLife Capricornia thanks you for the opportunity to comment on the Vegetation Management (Reinstatement) and Other Legislation Amendment Bill 2016. BirdLife Capricornia is an environmental organisation that is proactive in protecting the environment and educating others about environmental issues, with specific interest in birds, and the ecosystems that birds inhabit. We are an organisation of volunteers collecting bird survey data and providing education, advice and advocacy. We are a branch of the national organisation BirdLife Australia. We are located in Central Queensland, an area which is rich in habitat and its associated flora and fauna. I am making this submission as Secretary of BirdLife Capricornia on behalf of the group.

We would support the Bill for the following reasons;

- Removes the ability to get a permit to clear for so-called High Value Agriculture, and thus stop large-scale clearing of remnant woodlands.
- Restores protections for ecologically important re-growing woodlands ('High Value Regrowth') on freehold and Aboriginal land.
- Restores protections for trees next to riverbanks ('riparian areas') and extending provisions from some to all Great Barrier Reef catchments.
- Removes the defence of claimed mistaken clearing, and restores the starting presumption that a landholder is responsible for clearing that takes place on their property.
- Protects essential habitat for flora and fauna, much of which is in decline due to the devastating clearing that is taking place every year.
- Protects essential habitat for threatened species, many of which are facing extinction if clearing continues at the current rate.
- It makes the prospective legislation retrospective to 17 March, in an attempt to deter panic clearing and panic applications.

Yours sincerely

Allan Briggs
Secretary
BirdLife Capricornia
