I'm writing to provide a submission for the Vegetation Management (Reinstatement) and Other Legislation Amendment Bill 2016

I fully support the bill and consider it provides essential safeguards which prevents the loss of habitat and provides protection for areas of value.

In light of the destruction of the Great Barrier Reef we MUST afford everything that we can do to protect our remaining precious sensitive areas.

I fully support any efforts you put in to protection of our unique environment – I consider your recent Adani decision an act of vandalism and questionable recklessness.

Please consider sustainable (and profitable) tourism above supporting overseas mining companies.

Kind regards  
Cathi Zanevra
