**Subject:** please save our vegetation  
**Date:** Friday, 22 April 2016 5:09:36 PM

---

To Whom It May Concern I would like Parliament to immediately proceed with the protection of high conservation value vegetation and river edges reinstated to what it was in 2012 to protect our Great Barrier Reef from runoff, to reduce greenhouse gas caused global warming which threatens us all, to protect our wildlife and flora, to stop land degradation, to maintain essential eco-systems and retain our beautiful and unique bushland. All the marvellous efforts of our bush-carers and Landcare groups are undermined with the current situation. What are you thinking in terms of your own children, grandchildren, great grandchildren ??? please take immediate action
