To the Research Director of Agriculture and Environment Committee,
my name is Shananother Wong and I am writing to you to support the Vegetation Management (Reinstatement) and Other Legislation Amendment Bill 2016. I'm concerned about the world that our children will be left to inherit and naturally because of this I'm personally invested in stopping anything that puts our future at risk. The climate has changed and reinstating this Bill is one of the myriad of things that need to be done to mitigate what is already happening. All land clearing has to be stopped. I want remnant forest destruction to be stopped, regrowth destruction to be stopped, riparian zones to be protected and any other loop holes that may need to be addressed taken care of.

Shanother Wong
