Dear sir/madam,

I am writing to express my support for tougher tree/land clearing legislation.

Please think of the future generations of humans; animals whose remaining habitat is diminishing daily, the rivers and reef which are adversely affected by erosion caused by land/tree clearing.

Can't politicians see that we need to change our historically destructive methods.

I hope our descendants won't suffer too much due to our greed & short sightedness.

"much is required of those to whom much is given, for their responsibility is greater"

Thankyou,
