Subject: Broadscale landclearing...
Date: Thursday, 28 April 2016 4:51:41 PM

Dear Sir / Madam

I am deeply concerned that Queensland is currently losing more and more precious forests and woodlands, therefore exacerbating the occurrence of droughts, loss of topsoil, loss of wildlife, erosion, apart from impacting global warming. We also know the devastating effects broadscale land clearing has on our unique Great Barrier Reef. Such land clearing for example for agricultural land is completely unnecessary, because we actually grow more food than needed, but waste one third of everything which is produced.

I therefore sincerely ask you to ensure that the *Queensland Vegetation Management (Reinstatement) and other Legislation Bill 2016* will be passed.

Yours sincerely

Barbara Steiner
