To Research Director,  
The Agriculture and Environment Committee  
Parliament House  
Brisbane QLD 4000

Submission: the enquiry into Barrier Fences Queensland

As a member of the Gondwana Rainforests of Australia World Heritage Area Community Advisory Committee I am concerned that changes implemented to the Darling Downs Moreton Rabbit Fence (DDMRF) may reduce the protection currently provided to World Heritage property from pest species and wandering stock.

Any change to the DDMRF should also consider implementing a strategy to maintain the level of protection for the World Heritage Areas that is currently provided by the DDMRF.

Regards

Nadia O'Carroll
