Subject: RE: Special wild life reserves

Categories: submission

No worries, my name is Pamela Berrigan,

I have worked / lived on a cattle station for 32 years and I do know some of the issues that land owners have to deal with. I myself have helped in all aspects of station life so I know firsthand. My husband still works on the same station and he has totaled now 40 years. He has helped at a national park during firefighting and has seen firsthand how that operation is handled. Not well I must say. I am a lover of our land and its wild life but sadly to many desk jockeys are in the position of making such laws and they (though well meaning) are not being practical. We both owned some land along the Clark Range and it had platypus on it (which gave us much pleasure) and at the same time we also had cattle. Our land never suffered at our hands but if anything improved because WE controlled the ferrel plants and animals not the government. So please give the public a fair go and stop treating them like fools. It is the greedy few who destroy this beautiful country not the average man. Government also help with this destruction by letting profits get in the way. Short term gain for long term pain.

Thank you. Regards Pamela Berrigan

Subject: Special wild life reserves

To Whom It May Concern, I wish to submit my objection to the Special Wild Life Reserve Bill.

The last thing our country needs are more reserves. Already the **existing ones are NOT managed very well** as they are mostly left to go ferrel with both animals and plants. They are huge fire hazards.

Land owners in general **are** by far **the best** ones to manage the land successfully as that is **their home and income**. I know there are some exceptions but they are few.

Not many people have heard of this bill being submitted and I am most displeased with our government for their sneaky tactics.

This is a country where **ALL should have a say in how OUR country is managed** and the CORRECT information given not the fancy words which hide the true meaning of what is being proposed.

Thank you Pam Berrigan.
