Subject: Re: submissions for alteration to legislation regarding sand mining on north stradbroke island
Date: Friday, 25 October 2013 6:06:45 PM

To whom it may concern,

I believe that the continuation of sand mining is an important factor for north stradbroke island. the sibelco mine supports not only the local families but also many local businesses and the school. To remove the sand mine from stradbroke island, the local economy would struggle due to loss of stimulation from sibelco's many local employees.

Yours sincerely,
Lauren Stewart
