DUNWICH 4183
27/10/2013.

Dear Mr Chairman,
I write a submission in support of the proposed legislation, being the Nth Stradbroke Island Protection and Sustainability + Another Act Amendment Bill 2013, and would encourage the Committee to pass the bill.

I am a long term resident of 50 years. My employment depends directly on the continuation of mining on Stradbroke Island.

Although I understand that mining is finite, sufficient time needs to be given to develop replacement industries.

As a resident of Dunwich, I have grave concerns for my Townie. Loss of jobs, real estate downturns, school closure etc. So far there have been no viable solutions for the ongoing well being of the community.

Thankyou for the opportunity of making a submission.

Yours sincerely.

John Bryant
