Parliamentary Committee Chair,
Mr. Ian Rickuss
Parliament House Queensland
arec@parliament.qld.gov.au

Dear Sir,

I am writing this submission to support the continuation of Sebilco's mining operation on Nth Stradbroke Island.

Without the continued financial support of the Sibelco Sand Mining Community Benefit Fund my organization would struggle to continue our Marine Rescue and Medivac Service.

Many of the Island Community Service Groups are also dependent on the largess of the Sand Mining Community Fund to maintain their services.

For the future of our Community and its Voluntary Organizations it is imperative that the mining continues to allow time for transition to alternative industries to continue the financial viability of our Community.

Yours in Marine Safety,

Richard Dunn. President. Marine Rescue 449 Nth. Stradbroke
