Dear Sir,

With reference to your Committee, please accept my Submission as stated:

Once the relevant Government Department grants a Permit to a Miner, the Landholder has not got any option but to deal with the Miner whether he/she wants to or not.

The Miners have been trying to walk over the top of Landholders for decades (I know from experience) so DO NOT ease any Land Access Restrictions AT ALL! The Miner still has the right to negotiate an easing of any restrictions with the Landholder if the situation calls for it.

I thank you for this opportunity to make this Submission,

Yours sincerely,

AE Burnett,
