Try to use your own words, where you can. Although i am not in the elecorate of callide i am very familiar with the area as i hav several family members who have lived and others who continue to live in the area. Your name mr jeff seeney is also familiar. I live in maryborough which has its own mining issues to deal with. Proposed coal seam gas near and around the township of aldershot in my electorate is closer to home for me. I have been born and to date lived in a democracy just as i believe you have been. My rights along with every other nationalised australians are just as and possibly more relevant today than ever before. I and many other passionate australians will stand and fight against any changes you or any other government member attempts to change and pass that goes against our basic human rights. Take your mines out and away from infringing on any and all peoples dwellings properties and waterways. Kind regards judith cordie
