I object to Clause 429. Removal of restricted land status when the miner is granted exclusive surface rights to access land removes one of the few rights of vulnerable landholders. No-one should have the land surrounding their house destroyed by an open-cut mine yet this would be possible under this clause.

As a landholder, i am objecting to the changes that are going to be made giving miners exclusive surface rights to access land. We as landholders are having our rights taken away from us because the government seems to think that mining is the best thing for our country.

No one should be given the right to walk all over others and people need to be allowed the right to object to what they feel is wrong doing
