Date: Tuesday, 8 July 2014 6:51:35 AM

Dear Mr Seeney

The proposed new laws taking away community's rights to object to new minerals and resources developments is corrupt.

I will never support a government that takes rights away from the very people you are elected to serve, and hand them to corporations who hold selfish, profit to the few values.

When will you realise that its people who live in this country, not corporations.
