Transurban Reply – Budget Estimates 30 July 2024

Dear Chair

I am writing to offer a minor correction on a matter raised during the Clean Economy Jobs, Resources and Transport Committee (the Committee) Budget Estimates hearing on Tuesday 30 July 2024.

The Member for Maiwar asked the Director General of the Department of Transport and Main Roads, Ms. Sally Stannard, a question and stated that Transurban was political donor (see **Figure One**).

Figure One: Excerpt from Estimates Transcript

Mr BERKMAN: I will move onto another issue but still sticking with questions to Ms Stannard. In relation to the plan we have heard from Labor and the LNP for a new toll tunnel on the north side, has the department held discussions with Transurban—notably a Labor and LNP donor—about privatising the toll tunnel once it has been constructed with public funds?

Transurban does not make political donations or contributions of any nature to any political party, politician, elected official or candidate for public office in Australia. I have appended our Political Contributions Policy for ease of reference. It may help to have clarity and a source document.

Please feel free to contact me on [REDACTED] or at [REDACTED] anytime. We are available to Members if there are questions or if we can assist the Committee. Thank you for your consideration of the above. We look forward to continuing to work with the Queensland Parliament to get Queenslanders where they want to go, as quickly and safely as possible.

Yours sincerely

LYDIA VINSON
Senior Manager, Government Relations

Political Contributions Policy (Australia)

Purpose

This document sets out the Transurban Group's policy in relation to payments to political parties and individuals holding or standing for elected office (political contributions) in Australia.

Risks to the Transurban Group associated with political contributions potentially arise as a result of:

- Breach of Federal or State electoral laws (including exceeding caps or failing to meet disclosure obligations).
- Breach of Federal or State bribery or corruption laws.
- Contributions made during sensitive periods (potentially, even where the Group has complied with applicable laws), with associated reputational issues.

Policy

Transurban Group's policy regarding political contributions is as follows:

- The Group does not make political donations or contributions of any nature to any political party, politician, elected official or candidate for public office in Australia.

Legal Requirements

Transurban will review the effectiveness of this Policy annually, or if necessary, earlier if there is a change in law regarding political contributions in Australia.

Variations to Policy

Any material amendments to this policy must be approved by the Transurban Group Board.
