Submitter Comments:

As a resident of this state and considering the ever increasing crime rate I believe everyone should have the right to self defense on your property, we should always feel safe at our own home because we know the Police can't be there as soon as someone just breaks in, and has left residents seriously injured or death because they know if they injure or kill someone for just simply protecting themselves or their loved ones they will end up with harsh jail time. This proposal by the KAP is really good to hear. If this gets passed into law, it will keep home owners and their families safe from intruders.
