### Submitter Comments:

I wish to make the comments about the current bill trying to be passed upon citizens who bare firearms. It is a unfair and outright crazy notion to be putting so much parameters into place for firearms holders. When already it is hard for people to even obtain a fire arm. Me personally I can agree with knives in public as a victim of being mugged but firearms takes it to a whole new level. Personally the fact that politicians are trying to put these rules in place were anyone with a firearm is practically labelled as a dangerous person. Is clearly un Australian and is not part of the Australia that so many Aussies have died for.Sincerely. Connor Prior-Mead of [REDACTED] Queensland
