Submitter Comments:

I wish to make the following comments. That if labour continues with this stupidity of taking all our freedoms in the name of safety. I know many labour supporters will turn their backs on them.

You think you're untouchable??? You think we can't vote you out? I don't know why you lock everyone out of our parks and 4WD tracks. You've already choked our rights to bear arms and now you want to squeeze??? What's next? Fishing team sports? Mind you, you failed miserably in your promises for a cheaper life. We're choked by the price of everything that we need in life and do you care??? You like power you forgot who you're supposed to serve the Australian people.
