Submitter Comments:

I would ask, that the powers that be, review the timeline of the 10day period for the public to respond to the new governing of owning a firearm. I myself do not own a firearm. But I have family members that do in regional Australia that use their firearms on the daily as tools for the farm. Without them, they would be helpless against out of control kangaroo heards, foxes, wild dogs, tomcats etc. This must be run by the public in a more timely manner. Regards, Mason Feltoe
