Submitter Comments:

I do not believe that tightening gun laws and policing on spot details will help our crime issue with weapons as most weapons used in crime are not registered weapons held or used by licence holders but most are black market weapons used by non licenced persons. I also believe that hooning laws and dangerous driving penalties must be harsher but first police must act upon reports of hooning and dangerous drive in order to enforce these laws. Lack of police numbers are the common issue and without sufficient police employed laws are in fact useless. The passing of this bill is not lawfully possible nor is it doing justice to our communities I am hereby lodging my submission against this bill.
