Submitter Comments:

In regard to the Queensland Community Safety Bill 2024 I have concerns that the Bill gives the power to strip firearms licences from people because of things their family members do, forcing people to take down social media posts the authorities don't like, and expanding the situations where police can search people without a warrant. I am a licensed firearms owner; I use my firearms for hunting purposes, In the unlikely event that a member of my family should do "Something" that I have no knowledge of or control over why should I be punished? In regard to social media posts there are laws in place that cover promoting hate and other issues, we are not a communist regime or dictatorship, and people should have the right to free speech. Should these laws come in place would I have been known of this bill or would it be deemed that the post I saw be removed? With respect to Police having the power to search without a warrant (Probable cause) that is called intimidation! I would request the time available for consultation on this Bill, by stakeholders and citizens alike proper time to go through it, analyse it, and put together a proper submission be extended.
