Submitter Comments:

I really think that Queenslanders need more time to analyse this bill and properly consider the consequences. Please extend the submission period. I do not think it is morally right that the authorities be granted the power to strip firearms licences from people because of things their family members do, or, forcing people to take down social media posts the authorities don't like, and expanding the situations where police can search people without a warrant. These are just to name a few. There are multiple things in this bill that I believe are morally wrong and do not benefit our nation as a whole. Please reconsider. Please don't let this bill become reality for us, for our children and our children's children. Thank you so much
