Submitter Comments:

Hi, I hope this email finds you well. I wanted to bring to your attention the urgency of extending the consultation period for the Queensland Community Safety Bill 2024. The current timeline for feedback submission is insufficient for stakeholders to thoroughly review the extensive content of the bill and provide meaningful input. Given the significant implications of this legislation on civil liberties and firearm regulations in Queensland, it is imperative that all concerned individuals have adequate time to analyze the proposed amendments and formulate comprehensive submissions. I kindly request an extension of the consultation period to allow for a more thorough review process. Your support in this matter is greatly appreciated. Best regards, James Williamson
