Submitter Comments:

I am authorized to request that the North Queensland Rifle Association has only received the new proposed law changes to the Queensland Community Safety Bill 2024 currently under discussion some 7 days ago and request a further 3 months extension to fully read and understand the legal implications from these proposed changes to the law. As the North Queensland Rifle Association has legal licensed Firearm holders from as far as Sarina to the South, MT Isa to the West and Mossman to the North. There is a large area to cover and many people to get feedback from this takes time and is only fair and just these people have the opportunity to have a proper look and a say in the new proposed laws.
