Dear Community Safety and Legal Affairs Committee,

### Submissions for Queensland Community Safety Bill 2024

Thank you for providing Logan City Council with the opportunity to put forward a submission in relation to the Queensland Community Safety Bill 2024.

Logan City Council supports extending the offence of 'unlawful conduct associated with commission of racing, burn out or other hooning offence' to include a person who merely spectated a hooning activity without reasonable excuse.

Recently Logan City Council has received an increased volume of complaints in relation to hooning activities, and in particular within residential areas presenting community safety concerns.

Therefore, Logan City Council supports all interventions that relate to reducing hooning activities, and this proposed change complements day to day operations involving partnering with Queensland Police Service (QPS) in Logan City Council's Safety Camera Monitoring Room to reduce hooning activities across the City of Logan.

Logan City Council approves for this submission to be made public, but kindly asks that all names are withheld. Should you have any questions or require further information then please reach out to me directly in line with the contact details below.

Kind Regards

**City Safety and Liveability Manager | City Safety and Liveability Branch**
