To whom it may concern,

Recently I've become aware of the QLD community safety bill 2024.

To say I am gravely concerned about this bill is an understatement.  
I strongly oppose most of the content in this bill.

The fact that the consultation period for this bill was also non-negotiable for extension is also a concern, this to me suggests a "pushing it through" mentality has been adopted and we as the public no longer have a say.

Apart from the nonsensical and downright absurd position of the bill I'd like to see it removed and restructured to not involve any innocent parties and in particular any member of the greater firearm ownership community, we are so strictly controlled already and this bill is a free pass for the government to potentially implicate anyone it may see as having fun or legally doing as they please a criminal.

Remove this bill and please try to regain the community's trust and respect.

Regards,

Shannon Beard
