Submitter Comments:

I Rebecca Ann Miller, am writing in regards to the proposed changes to the Queensland Community Standards Bill 2024.

I am concerned that law abiding, licenced gun owners will be unfairly impacted due to the actions of others of which they have no control. It is guilty by association only.

It is unrealistic to expect licenced individuals to know if an associate is a recognised offender, or has a criminal conviction, especially when the term associate has a broad reach of who could be interpreted as just that.

I am also asking for an extension of time for the proposed bill, so the public has more time to read the entire bill.

Please take into consideration the signatures on the included petition, and please note more would have signed had there been more time allowed.

I would like to ask that this submission remain confidential also.

Sincerely

Rebecca Miller

Section (4) An individual is an associate of a recognised offender if the individual—

- (a) has a romantic or familial relationship with the offender; or
- (b) associates with the offender in a way that involves seeking out or accepting the offender's company, whether the association happens in person or in another way, including, for example, electronically.
