With regards to the "Queensland Community Safety Bill 2024,

As a opposition leader, I urge David Crisafulli to delay this Bill. The Bill in detail can have major impact on almost every Queenslanders in some ways. If this Bill is the start of something, then it can grow into something so much larger & perhaps more detaining to everyday people. I urge you all to reconsider this Bill.

Queenslanders are well aware of our short comings, when it comes to youth crime, vehicle crime, domestic violence etc. The pivotal component is not a almost communist cracking down on the people of this state, one could address it in many other ways. Perhaps there are not enough government employees to assist in the areas of concern. Perhaps to much government overspending in areas that have no direct impact in assisting Queenslanders lives & freedoms.

You are all in a position of power to work FOR the people of Queensland, please,

I believe the submission period MUST be delayed to allow Queenslanders a proper chance to consider the Bill, and we need your help.

Kind Regards
