Submitter Comments:

Community Safety Bill 2024.

This bill is a remake of the Weapons and other legislation (Firearms Offences) Amendment bill 2019.

The 2019 bill was defeated and the current government has the audacity only a few years later to try and reintroduce draconian laws on its constituents through the Community Safety Bill 2024.

The sheer premise of guilty by association even through the likes of the social media (which in most cases, how would anyone know if the people in their friends list has a criminal record) is a direction that a communist country would take.

It is unconstitutional, un-Australian and sets a precedence to a path of destruction of core Australian values and the rule of Law.

I strongly disagree with the Community Safety Bill 2024.

Kindest Regards

David Bond
