Subject: Proposed changes to firearms laws

This to advise I am extremely concerned on what I have seen regarding proposed changes to Qld firearms licensing, as an avid hunter and target shooter I would like to see more time spent on consultation with the appropriate organisations that this bill may impact greatly and adversely.

This amount allotted of \$160m could be better spend on perhaps solving some of the issues the bill speaks about rather than blanket labelling of everyone with some association with an perhaps offender - yet nothing to do with them

Respectfully request if the funds are to be spent - do it with time and proper consultation to sort out the issues not just Blanket everyone as the same - I would agree with some of the points - but could be handled better than what I have just read as it might be interpreted in many different ways

Very concerned as to the push all of a sudden to get this through - why wasn't this advertised more publicly etc, seems a little sneaky on your part so myself and no doubt every other shooter in Qld would like some answers.....
