**SubmitterComments:** As a law-abiding firearms owner, I take my firearms ownership seriously. The proposed Queensland Community Safety Bill 2024 violates our rights extensively. As a fit and proper person, this act could subject me to warrantless searches at any time just because a family member, co-worker or someone I have just met has a Firearms Prohibition Order, even if I did not know that the person had an FPO. I have seen the cruel acts of people who have used DVOs against an innocent person as a way to cause harm and prevent the person from applying for their firearms license. This act will see more threats and violence against partners (with a license) as a way to victimise that person by giving the abusive/manipulative person another weapon to attack the shooter. This proposed Act, is all about removing firearms and the privileges from law-abiding licensed citizens. The Act removes ALL human rights gives the police the power to violate the rights of a shooter over someone's social media post, and hearsay of any person who has a vendetta against an innocent firearm license holder. This Act should be sent to the scrap heap, as this proposed bill does nothing to disarm ANY illegal firearm holders, the bill only attacks the LEGAL firearm license holders! This bill weaponises the police and criminals and allows them to cause harm and terrorise the citizens of Queensland without any recourse. If guns are outlawed, then only outlaws/criminals will have guns.
