Committee System Review  
Committee

11-1

Dear Research Director,

I am grateful for the Chair's letter of 8 April concerning submissions to the current inquiry.

I regret to say that since completion of the QCRC's task I have not paid sufficient attention to the recent working of the Committee system to be able to produce a submission that would be of any assistance to the Committee. However, given that the possibility continues to be remote of either Queensland or the Commonwealth adopting a Bill of Rights additional to that of 1689, I would wish to say that the Scrutiny of Legislation Committee should be maintained and that more publicity should be given to its responsibilities.

Yours truly,

Colin A. Hughes  
Emeritus Professor of Political Science,  
University of Queensland
